

CITY OF STONE MOUNTAIN ANNEXATION UPDATE

April 6, 2017

City of Stone Mountain request for the Georgia General Assembly to annex property into the City of Stone Mountain was not issued a bill number during the most recent Legislative Session.

At present, the City is anticipating that future meetings will be held within neighborhoods that are represented within the City's annexation plan to give an opportunity for House and Senate representatives to discuss the plan with those who will be potentially affected by the plan, if the plan should move forward at some later date.

Currently, a meeting has not been scheduled of the City's Annexation Task Force Committee. The public will be notified when a meeting date and time has been scheduled.

Please feel free to contact the City's Administration Office if you should have any questions or concerns regarding the matter.

Thank you.
